BEDDING BAG

Pre-dosed packaging of bedding and environmental enrichment together with which the animal works of opening and distributing the product inside the cage. It is an environmental enrichment factor used by the animal for the well-being and the construction of the nest

In laboratories where the behavior of animals is studied it was found that using BEDDING BAG

- the animals are less aggressive,
- It is a great time saver for the breeders and ensures the right dosage systematically
- it is a response to potential dust problems or allergies

Bedding Bag is packaged with a non-woven fabric of light-colored cellulose and is available in bags of 55 gr, 70 gr, 100 gr, 150 gr and 170 gr in boxes of 50, 60 pz.
