POPLAR STICKS

Wood products suitable for the use of research institutes used as environmental enrichment. These fresh virgin poplar wood products are strong enough for animals to chew and gnaw to satisfy their natural instincts, to exercise their teeth and gums and to make them play.

The products are available in a variety of sizes and are suitable for mice, rats and rabbits.

Each box is individually labelled with batch number and production date

SMALL 50X10X10mm (1 bag 2000 pz) for mice

MEDIUM 100x20x20mm (1 bag 400 pz) for rats

LARGE 200x40x40mm (1 bag 50pz) for rabbits

Product subject to controls by an authorized analysis laboratory.

Option:
Irradiation to 25kgy with double packaging

Caipet is one of the leading companies in Italy in the production of bedding and environmental enrichment products for laboratory animals. Caipet performs regular controls to ensure the quality and the absence of contaminants in its products. Our customers can rely on pre- and post sales assistance through direct and constant contact.
