

CAIPET
Bedding & Solutions

Straw / Hay

Products obtained from cereals grown in Italian fields without the use of synthetic substances. The defibering and ventilation processes make the product ideal as high-absorption litter chopped at approximately 10 cm.

Packaged in sealed packages for the efficient and long-lasting conservation of its nutritional characteristics, protection from the oxidizing action of light and air and prevention of the development of mold.

Complete straw pallet with 36 cellophane-wrapped bales of 13 kg

Complete pallet of hay with 36 18 kg wrapped bales

Product subjected to control by an authorized analysis laboratory

OPTION: product irradiated at 25kgy

Caipet is one of the leading companies in Italy in the production of bedding and environmental enrichment products for laboratory animals. Caipet performs regular controls to ensure the quality and the absence of contaminants in its products. Our customers can rely on pre- and post sales assistance through direct and constant contact.
