

CAIPET
Bedding & Solutions

Sunflower seeds (husked or not)

Sunflower seeds are perfect for animal feed. They are excellent source of unsaturated fatty acids, linoleic acid and fibre. They provide a supply of vitamins of groups B, D and E, the protein level is moderate. Sunflower seeds make the coat shiny thanks to the high oil content, excellent for supplementing the daily diet. They can be intended for rodents, rabbits but also non-human primates.

600g packs, 10 packs per box

OPTION: product irradiated at 25kgy

Caipet is one of the leading companies in Italy in the production of bedding and environmental enrichment products for laboratory animals. Caipet performs regular controls to ensure the quality and the absence of contaminants in its products. Our customers can rely on pre- and post sales assistance through direct and constant contact.

Certificate UNI EN ISO 9001:2015
